I think a Meeting similar to what we did last year with several presentations including the CAP. I anticipate more public interest..

Gary, I will be sending out an email to the CAC group on our plans for a January open house at the community center instead of a CAG meeting. Want to be sure your still on board with this. I am checking dates for late January... as many of us will be out after the first of the month. The subject of more outreach came up at the Vince Ryan visit last week, so we better start planning (and with the site team) for this.
